Giving Shape to Ideas

PRECISION LABEL SERIES

The PLS-402f is a complete digital label finishing solution designed to meet the needs of brand owners, commercial print shops and converters who have short run finishing requirements. This compact, affordable unit laminates, contour cuts, strips and slits. Dual registration marks automatically place the cutting blade in the exact location needed, compensating for skew or scale issues. The PLS-402f allows you to bring label production in-house to better control production costs and quality, reduce inventory and achieve a faster time to market.

High quality label finisher.

- Designed for affordability and ease-of-use
- Maximum cutting speed of 24 inches per second
- Lamination, matrix removal, contour cutting and slit for applicator-ready labels
- User-friendly control panel for quick initial setup and operation modes
- Sturdy frame and spindles for accurate unwinding and rewinding of roll media
- Dual mark registration system for accurate and precise positioning of cutting blade

PLS-402f with improved features.

- Max cut frame 19.6" — larger labels can be cut
- Newly added vertical splicing table — saves time with less waste
- Advanced Registration Marks Sensing System — approximately 25% faster

Specifications

SYSTEM SPECIFICATIONS
